

CAPABILITY STATEMENT

KURRA

CONSTRUCTION

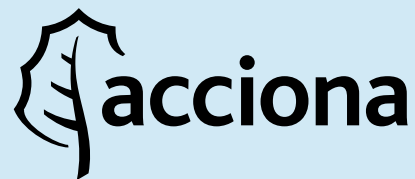

BUILDING STRENGTH, CULTURE & COMMUNITY

OUR CLIENTS

Kurra Construction offers more than technical skill—we bring clarity, accountability, and reliability to every stage of a project.

Clients value our ability to integrate seamlessly into site operations, meet tight deadlines, and uphold the highest safety and quality benchmarks.

Acknowledgement of Country

At Kurra Construction, we proudly acknowledge the Traditional Custodians of the lands on which we operate - the Whadjuk Noongars- and pay our respects to their Elders past and present. As a Ngadju-owned business, we stand strong in our own connection to Country, culture, and Community, carrying forward the knowledge, resilience, and spirit of our people. We honour the enduring strength of all First Nations peoples and commit to working in ways that respect, uphold, and celebrate our shared histories and future.

Diversity and Inclusion Commitment

Kurra Construction is committed to building a diverse and inclusive workforce. We welcome individuals from all backgrounds and are passionate about creating meaningful opportunities for Aboriginal people within the construction industry.

ABOUT US

Kurra Construction Pty Ltd is a 100% Aboriginal-owned steel fixing business, proudly founded by Darian Soleil, a descendant of the Ngadju people of Western Australia.

The name *Kurra* holds deep cultural significance-meaning Country, spirit, and the life force that connects all living things. Kurra Construction is guided by Darian's spiritual connection to the Mulbra (*Woma*) Snake, an ancestral being symbolising resilience, protection, and renewal.

This cultural foundation shapes our values: strength, respect, adaptability, and a lasting connection to Country.

Kurra Construction specialises exclusively in steel fixing services for residential, commercial, civil and industrial construction projects across Western Australia.

Led strategically and operationally by Darian, Kurra Construction focuses on delivering high-quality, safe, and culturally grounded services-while creating opportunities for Aboriginal participation and economic empowerment.

OUR VISION

At Kurra Construction, our vision is to deliver technical excellence in reinforcement while creating pathways for Ngadju people and Aboriginal communities through real employment and participation in the construction industry.

We are committed to:

- Growing a strong, respected Aboriginal-owned business
- Delivering real Indigenous engagement outcomes for major projects
- Establishing trusted strategic partnerships to enhance delivery capacity
- Providing opportunities for Aboriginal workers and subcontractors on Country

Through every project, Kurra Construction strengthens ties to land, culture, and community.

OUR CAPABILITIES

Kurra Construction delivers smart, responsive steel fixing solutions across diverse project types. Our capabilities reflect a balance of skilled labour, professional systems, and on-the-ground problem-solving.

01

Reliable and Efficient

We meet deadlines with clear communication and a strong focus on site readiness and delivery coordination.

02

Flexible and Scalable

From small-scale residential to large infrastructure builds, our capacity and strategic partnerships ensure scalable, culturally aligned delivery.

03

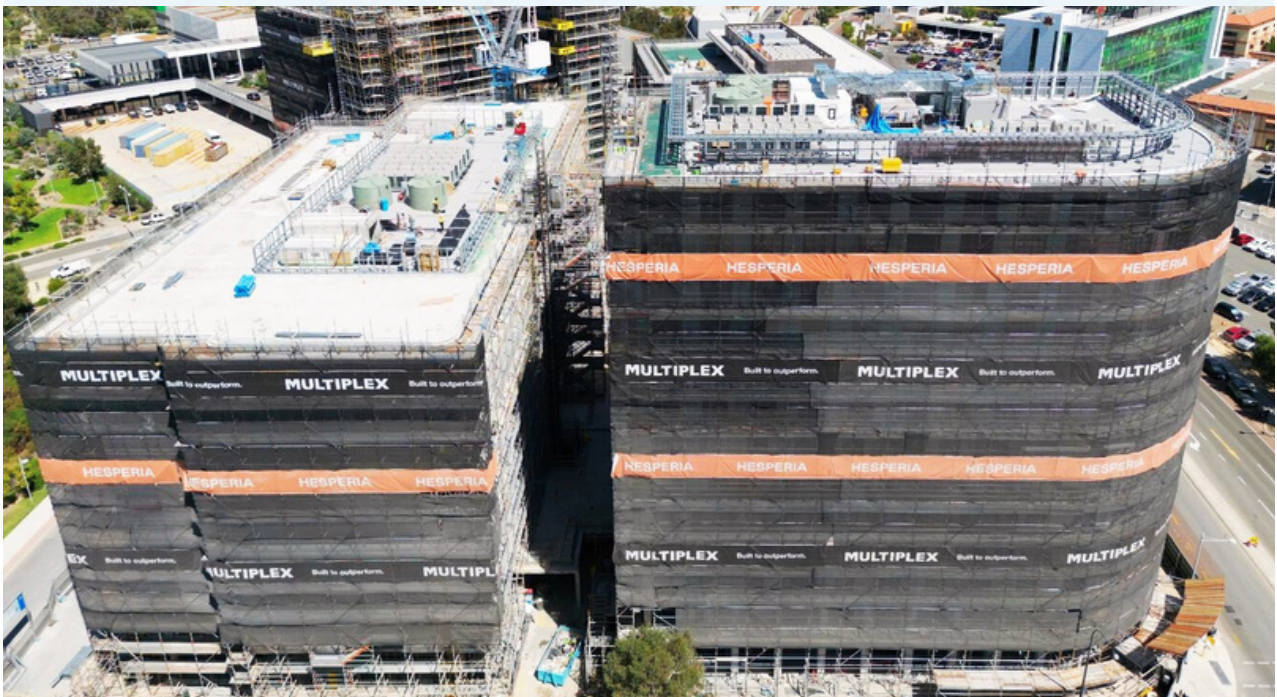

Industry Experience

Deep expertise across all phases of steel fixing—from footings to bridge reinforcement. We deliver precise, compliant work in varied site conditions.

04

Commitment to Safety and Quality

Zero tolerance for unsafe practices. Our team is fully trained and high-risk compliant, with robust QA systems and full project traceability.

OUR SERVICES

Steel fixing services for residential, commercial, civil and industrial projects.

STEEL FIXING

Installation of reinforcement for slabs, footings, columns, beams, stairs, bridges, and walls-built for strength and compliance.

REBAR PLACEMENT & TYING

Precision workmanship to ensure structural integrity, safety, and long-term performance.

CONCRETE REINFORCEMENT

Reinforcing structures to endure the toughest environmental and operational demands.

WORKFORCE SOLUTIONS

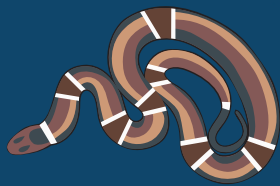

At Kurra Construction, we understand the demands of fast-paced construction projects and the importance of having the right crew on-site. We specialise in supplying reliable, qualified steel fixers for both short-term and long-term roles across Perth and regional WA. Drawing from real on-site experience, we provide a workforce that's ready to get the job done safely, efficiently, and on time.

WORK WITH US

Kurra Construction is actively developing strategic partnerships with reputable companies to scale delivery capacity for major works; strengthen project management and compliance systems; and reduce delivery risk for clients. Partnering with Kurra Construction directly contributes to:

- Indigenous economic empowerment
- Indigenous workforce participation
- Culturally safe project delivery
- Stronger community outcomes on Ngadju Country and beyond
- Advancement of reconciliation
- Support of Indigenous engagement initiatives
